AgilePath Rides SOA Wave, Moves into New Corporate Headquarters

*Service-Oriented Architecture (SOA) in Federal Government and Commercial Sector
Fuels Company Growth*

NEWBURYPORT, MA—April 18, 2006 – AgilePath Corporation, a leading service-oriented architecture (SOA) management consulting firm, has moved into a new corporate headquarters location based on its business growth in 2005 through the first quarter of 2006. Still based in Newburyport, MA, AgilePath’s new corporate headquarters represents a 400% increase in office space that reflects its increased revenue and organizational growth over the last 15 months.

“We are pleased to maintain our corporate headquarters in Newburyport,” states AgilePath Founder, President and CEO Eric A. Marks. “We are committed to the Massachusetts North Shore when we founded the company in 2003, and we intend to remain here to grow a very special and exciting company focused on SOA and related emerging technologies.”

AgilePath’s growth is attributed to its continued success in the commercial sector, anchored by wins with multiple Fortune 100 and Fortune 500 clients based on its SOA Playbook™ consulting methodology. However, the big story for AgilePath in 2005 and 2006 was its entry into the Federal Government and Department of Defense sector based on its work with the United States Air Force.

“We began targeting the Federal Governance and Defense sector last year and won our first contract in October 2005,” states Marks. “After our initial success, we have continued our penetration into multiple DoD and Federal agency opportunities. The Federal sector represents a significant portion of AgilePath’s ongoing SOA consulting business, and our commitment to the Federal segment will accelerate to address the unique SOA requirements of the DoD and Federal Government.”

AgilePath is an innovative SOA consulting firm that pioneered the business approach to service-oriented architecture (SOA) in 2003 based on AgilePath Founder Eric Marks’s book “Executive’s Guide to Web Services” (2003, Wiley). AgilePath President and CEO Eric Marks has just released his second SOA book, “SOA: A Planning and Implementation Guide for Business and Technology” (2006, Wiley), and is about to begin his third SOA book later in 2006. AgilePath’s patent-pending SOA Playbook™ methodology is the capstone of its professional services offerings and provides the overall flow for rapid, high value SOA consulting services for its clients.

About AgilePath Corporation

AgilePath Corporation is the leading vendor-independent management consulting firm focused exclusively on Service-Oriented Architecture (SOA). Founded in 2003, AgilePath's mission is to help business and IT executives understand, plan and implement SOA through its SOA strategy, SOA governance and SOA technology consulting services. AgilePath's thought leadership, business focus and patent pending SOA Playbook™ methodology lead to rapid ROI and business results via SOA. AgilePath is based in Newburyport, Massachusetts.
