Continues SOA Governance and SOA Playbook™ Implementation Momentum

NEWBURYPORT, MA—February 12, 2007 – AgilePath Corporation, a leading service-oriented architecture (SOA) management and technology consulting firm, announced new contract awards with the Defense Information Systems Agency (DISA) and National Geospatial-Intelligence Agency (NGA). These two contracts capped a record January for AgilePath Corporation, during which it received six new contracts for SOA strategy, governance, architecture and implementation services based on its SOA Playbook™ solutions and methodologies.

“Our DISA and NGA contract awards continue our expanded presence in the DoD and Federal Governance SOA market, and also provide additional recognition of our industry-leading SOA Playbook™ solutions,” said Eric A. Marks, Founder and CEO of AgilePath Corporation. “SOA demands appropriate strategy, governance and proven implementation experiences in order to ensure mission and business results,” said Marks. “AgilePath will continue to bring commercial experiences and best practices to our Federal Government and DoD clients while accelerating our innovation and thought leadership in the SOA industry.”
